Boys Brigade members visit UMS

TBP 20.03.2023 P.06

KOTA KINABALU: Around 40 members of Boys Brigade (BB) Kota Kinabalu branch made an educational visit to Universiti Malaysia Sabah (UMS) on Friday.

An initiative by the Fourth Kota Kinabalu BB Company, the purpose of the one-day visit is to inculcate continuous learning among the members and build good rapport with relevant government agencies.

About 33 senior section members and seven adult officers had visited the Ibnu

Sina medical museum, Azman Hashim art gallery, marine museum and Rawja archery. For many of the members, the visit was an eye opener to discover new horizons, especially in the field of science and art.

According to Sergeant Lewis Liew of the Kota Kinabalu Fourth BB Company, the human body is extremely complicated and he was fascinated on how dead human organs and corpses were processed into specimens for display and scientific research purposes.

The parents also played an important role in supporting and encouraging their children to join the activity.

One of the parents, Rose Ladzim commended the organiser as it has broadened the minds of her children and she hoped for more such activities in the future because they will also teach them to be more independent.

Boys' Brigade Sabah is an affiliate of Sabah Youth Council (MBS), a non-governmental organisation that assists the government in youth development.
