UMS students offered job after attending bootcamp

KOTA KINABALU: Twenty-four final-year students of Universiti Malaysia Sabah (UMS) joined the 12-day Petronas BeDigital Bootcamp 2.0 near here recently.

UMS Engineering Faculty Dean, Professor Madya Dr Ismail Saad said that the programme was held to support human capital development towards reaching the country's digital

economy aspiration.

He added that this was the second time Petronas collaborated with UMS in the programme and the first BeDigital Bootcamp was held last March.

The present bootcamp was participated by final-year students from Universiti Teknologi Mara (UiTM) Sabah branch and Kolej Universiti

Yayasan Sabah (UCSF).

"The participants are lucky because those who showed excellence during the programme have the opportunity to be offered a job immediately by Petronas and other companies.

"For that, I congratulate 16 UMS students who were selected and offered to work with Petronas and Tata Consultancy Services," he said.
