He said this was the result of the Career and Students Entrepreneurship Development Centre for organising various programmes for UMS graduates including upskilling, reskilling and job placement through Penjana KPT CAP, KPT @state and KPT PACE, last year.

He added that earlier this year, the Student Career and Entrepreneurship Development Centre received Khazanah Nasional MySTEP Sabah fund from Britay Asia (M) Sdn Bhd amounting to RM1.4 million, as well as RM750,340 from the Penjana KPT, bringing the total funds raised by the centre to RM4.7 million.

“These funds will help the centre a lot, especially in financing various activities and programmes related to entrepreneurship, training to generate income for students and graduates, especially those who are looking for employment,” he said.

Taufiq also expressed his hope that UMS graduates would be responsible individuals, with integrity, and contribute to the community while not forgetting their parents and family members who have given them support throughout their studies at the UMS.
