

THE CYCLE OF LIFE

The end & the beginning

The School of Engineering & Information Technology (SKTM) welcomed 424 new students to the School on the 5th of September 2013 during the orientation week (*Minggu Suai Mesra*) 2013 (MSM13). The aim of this week long program is to familiarize the new students with their new home for the next few years and to assist them with the registration process for their new accommodation, course registration, and just welcoming them to Universiti Malaysia Sabah. One day of the week long program is given to the respective schools to welcome their students and this is how the day for the new *SKTMers* went on.

A Fresh Start for
424 *new students*

The first activity of the day was to meet the management and staff of SKTM. The Dean, Associate Professor Ir. Rosalam Hj. Sarbatly performed this introduction and welcomed the new students. The Dean then enlightened the freshmen by introducing Sabah, UMS and SKTM. Then he challenged the students to study and work for "sustainability". From the rousing response it seems they have enjoyed the Dean's message.

2013
V12
11

The morning session continued after the tea break with academic briefing, motivational talks, safety briefing, and a briefing by the Engineering and IT Society (EngIT). This was followed by lunch in SKTM at 12.30PM.

Civil Engineering (HK01)

Electrical Engineering (HK02)

In the afternoon session, students were brought to their respective tutorial rooms for briefings by the head of their respective program. They also had a short tour to the program laboratories and workshops before the event ended at about 5:00PM.

Chemical Engineering (HK03)

Computer Engineering (HK20)

Software Engineering (HC00)

Network & Systems Management (HC05)

Mechanical Engineering (HK08)
