

STRATEGIC PLANNING WORKSHOP

Hasmi Hashim, Sr. Assistant Registrar

A workshop on Strategic Planning Review was held successfully at the Kudat Marina Resort from 15th – 17th February 2013. It involved all of the School's Executives i.e. Deputy Deans, Head of Programs, Professors and Officers, and headed by Assoc. Prof. Ir. Dr. Rosalam Sarbatly, the Dean of School of Engineering & Information Technology.

The objective of the workshop is to review the current status and progress of the core elements in SKTM's book on Strategic Planning Beyond 2020 – Reinforcing the Foundation of School of Engineering & Information Technology (ISBN978-983-2641-76-6), as well as the steps and action for improvement, which can be divided into five main parts, which are:

Human Resource

Research and Development

Academic : Undergraduate & Postgraduate

Strengthening OBE & CQI Implementations

Social Obligations, Student Affairs and External Relation

The workshop was concluded with resolutions on progress status and improvements in lieu with the Eco-campus policy of the University, as presented by Dr. Nurmin Bolong, Deputy Dean Academic SKTM cum the workshop chairperson. The participants had unanimously decided to have similar workshop every year to check the progress and opportunity for improvements in relation to the contents of the book for the betterment of the School in particular, and for the University in general.

The participants were also involved in teambuilding activities in the afternoon, which included beach volleyball, group zumba and swimming. According to the feedback received by Hasmi Hashim, Senior Assistant Registrar SKTM cum the workshop co-ordinator, it certainly had completed the day for the participants. The workshop ended on a high note with a concrete resolution. A compilation of the workshop resolutions will be published soon.
