

# Reflecting on Ethical Values and Practices

A one-hour talk entitled, *Integriti dalam Perkhidmatan* (Integrity in Service) was organised by PPIB's National Integrity Plan Committee led by Pn. Kasma Mohd. Hayas. The presentation was conducted by Mr. Ismail bin Abdul Jalil, (Head of the Internal Auditing Division, UMS) at PPIB's main meeting room on 27 August 2010.

The invited speaker emphasised the importance of upholding integrity as public service providers. To earn respect from the public, we need to be upright in our actions and be excellent exemplars to the public. This may seem like a tall order but it is not 'mission impossible'. Mr. Ismail urged PPIB staff to practice integrity as they discharge their official duties and responsibilities, especially in the management of time and resources. His talk was followed by a lively question and answer session. Everyone who attended the occasion agreed that it had inspired them to do some soul searching on the issue of professional ethics.
