

SCHOOL BASED TEACHING @ RKKKK

Rumah Kanak-kanak Beringgis Papar is one of the orphanages that we have in Sabah. Residents there included orphans, child from poor family, child being abused, and others. As future teachers that care for community, HT06, Education with TESL, 3rd year's students had a microteaching programme in Rumah Kanak-kanak Beringgis, Papar on 29 March till 6 April, every Saturday and Sunday. There were 47 students get involved in the programme, where every group had take turn to have the microteaching session. We had 42 participants, where 20 of them are in secondary school while the others are in primary school. This was the second microteaching programme for HT06 third year's students since we were in this course. The first microteaching programme had been held in Sekolah Menengah Agama Inanam, Kota Kinabalu when we were in our first year study.

The opening and closing ceremony had been held on 5th April 2008, Saturday at SPPS mini auditorium. All the students that get involved in the programme had been brought to UMS as an encouragement for them to further their study in their future. The ceremony was officiated by Mdm. Kamsilawati Kamlun as a representative for Prof. Dr. Zulkifli Mohamed, SPPS Dean. Through the microteaching, we got a lot of experiences, and we learn a lot of new things. We would like to thank Assoc. Prof. Dr. Hamzah Md Omar, our beloved lecturer that had given us a chance to experience all these. We enjoyed it a lot and we are sure, the experiences that we had gone through during the microteaching programme will help us in our practical later. Thanks once again.
