

Scientific Forum on Ear Problem & Hearing Disabilities

By: Rina Norgainathai

A Scientific forum on Ear Problem & Hearing Disabilities was held on 2nd October 2010 at the UMS Gallery Hall, Universiti Malaysia Sabah. This one day program was jointly organized by School of Medicine, UMS and the Queen Elizabeth Hospital, Kota Kinabalu, Sabah. The aims of this forum were to emphasize the proper approach in the management of common ear problems, to detect the hearing impaired cases earlier, to understand the principles of hearing rehabilitation and also to know the advantage and limitations of the technology in solving hearing problems.

This scientific forum was a success with over 110 participants. Several topics were presented by eminent speakers which were beneficial and also created awareness among participants. Congratulations to Assoc. Prof. Dr Maher Fouad Sefein and the entire team for organizing a successful forum.
