

ACCREDITATION

In year 2007, UMS Medical School was given accreditation by MQA for a period of three years. At the end of it, the MQA has come back for a second visit on 20th to 23rd July 2010. The visiting team consisted of six panel members, led by Dato' Dr Abdul Hamid. On the first day of the visit, the panel visited the SPU laboratories at SST, clinical skills laboratories at SKTM, medical museum and the new sites of School of Medicine. On the second day, the panel visited Block Clinical School of Medicine in Sandakan. In the afternoon, the panel visited the Clinical Block HQE, HQE1, HQE2, Hospital Mesra Bukit Padang and Hospital Likas.

Other than that, the aim of the visit was to show the collaboration between the university and the Ministry of Health to support the medical undergraduates program in UMS. On the third day, the panel went to the Village Medical Center as well as to Hospital Sikuati, Kudat. On the last day of the visit, the evaluation panel presented the "Exit Report" to the audience of SPU. In addition, they highlighted certain areas of concern that need to be improved by SPU members to enhance the quality of the program. However, the reviewers are proud and happy of the success of the SPU Bachelor of Medicine's program. Hopefully, the visit by the MQA will help develop better performance of the SPU in the near future.
