

PUSAT RAWATAN WARGA (PRW)

Pusat Rawatan Warga (PRW) commenced services in May 2004. Currently it serves UMS in a beautiful purpose built health centre facility. In future, services will be extended to staff. The clinic is managed by the School of Medicine. Because of its attachment to the UMS School of Medicine it will provide a high level of medical care that is evidence based and socially driven in keeping with the school objectives.

OBJECTIVES

1. To provide a high standard of clinical service to students and staff.
2. To provide psychological and counseling services.
3. To provide basic on site emergency services prior to transfer to Secondary or Tertiary facilities.
4. To incorporate Health Promotion and Education as part of the service.
5. To provide screening services for staff above the age of 40 and to those at high risk of non Communicable diseases such as cardiovascular diseases (including hypertension), Diabetes, Cancer and blood disorders such as thalassemia.
6. To undertake routine immunization.
7. To assist in the teaching of Primary Care to our medical undergraduates.
8. To conduct research for both undergraduate and postgraduate levels.

PLEDGE

Pusat Rawatan Warga (PRW) will provide clients with a high standard of a primary care and outpatient services. Efficient, effective delivery in a friendly and courteous manner will be the hallmark of our services.
