

# SANGGAR SISWA : NEWLY OPENED STUDENT LOUNGE FOR UNDERGRADUATE STUDENTS

The school management has been thinking of this idea for many years but due to space constraints, the idea of having a place for a student lounge has been delayed for quite a long time. The undergraduate students haven't got a proper place to relax and have an open discussion. The only student lounge available is only for post graduate students located at Level 1. However, after Business & Economics School's Administration Office moved to a new place at Level 1 recently, the management has decided to transform the old office into a Student Lounge for undergraduates. The new facility has become a meeting place for all the undergraduate students as it is fully equipped with air-conditioning and complete with wi-fi facility which enable students to have free access to internet connection. Deputy Dean (Academic & Student Affairs), Dr. Pg. Hassanal Bahar Pg. Bagul said that the newly added facility could upgrade the studies environment in Business & Economics School.
