

Ceramah EcoCampus Siri I

Satu ceramah anjuran bersama Pusat Pengurusan 'EcoCampus' dan Fakulti Peranian Lestari telah diadakan pada 12 September 2014 dan telah menampilkan tema Pengurusan Sisa dan Landskap. Acara tersebut telah dihadiri oleh lebih 120 orang terdiri daripada pensyarah, kakitangan sokongan dan para pelajar tahun tiga dan empat. Fakulti Pertanian Lesari juga begitu bertuah kerana Pusat pengurusan 'EcoCampus' telah menjemput Dr. Nobuyuki Tsuji, seorang tokoh penyelidik terkenal dalam bidang Sains Kelestarian dan Pengurusan Sisa dari Fukuoka, Jepun. Dalam ceramah bertajuk 'Kadar Kitar Semula yang Tinggi di Jepun', beliau telah berkongsi kejayaan amalan lestari yang telah dipraktikkan di negara tersebut terutamanya di Furano, sebuah daerah di Kepulauan Hokkaido.

EcoCampus Talk Series II

Ceramah EcoCampus Siri I dan II

Continuing the UMS's Sustainability Week momentum from the 8th to 12th December 2014, EcoCampus Management Centre had organised a second talk at the Faculty of Sustainable Agriculture. The faculty was once again delighted to have the Director of UMS EcoCampus Management Centre Dr Awangku Hassanal Bahar, the Japan International Cooperation Agency (JICA) – SDEBC Sabah's Chief advisor Mr Kazunobu Suzuki, a prominent scientist from Hokkaido University Prof Mitsuru Osaki, and Dr Nobuyuki Tsuji a Research Fellow for EcoCampus Management Centre who is also from Hokkaido University. Prof Mitsuru Osaki in his talk has mentioned about the availability of precision technology such as the satellite to collect real time accurate data to help researchers in making decision and conclusion.
