**MONDAY, 26 MAY** – The Ministry of Youth and Sports (KBS) Sabah suggested that Universiti Malaysia Sabah Sports Centre equipment be fully utilised.

Its minister, Datuk Hj. Tawfiq Abu Bakar Titingan said the sports science facilities which were sophisticated added with a scheduled sports science programme would surely produce distinguished athletes.

Therefore, he recommended that the sports equipment used in UMS be shared with state athletes.

–“This alliance is thus able to make Sabah one of the major powers in the field of sports in the country one day,” he added. He was speaking at a ceremony organised by the university recently.

At the occasion, he also expressed his appreciation for the implementation of a “blue print”™ between his ministry and UMS related to short term, medium term and long term sporting development. - *SS (fl)*
