THURSDAY, 23 JANUARY – Universiti Malaysia Sabah (UMS) which is synonymous with its beautiful landscape was today visited by a group of 20 final year students of the Diploma in Information Management Programme (UiTM) Samarahan Campus, Sarawak.

Officer-in-charge who was also the programme coordinator lecturer, Mary Jane Abd. Samad said that their visit to UMS was to expose their students to information agencies such as the library, archive,

museum and resource centres available in UMS.

“This academic visit hopes to help students gain accurate and correct information and learn in more in-depth the related fields,” she said.

She added that the beautiful landscape was one of the main factors of their visit to UMS.

“UMS is well-known for its beautiful buildings and landscape. We are grateful to be able to see for ourselves its scenic and serene beauty,” she added.

The visiting group consists of 16 girls and 3 boys, and was brought around by a Customer Service Representative from the Corporate Relations Division, Fazharia April to UMS Museum and KKFM Radio including the Research Gallery located at Chancellery Building before proceeding to UMS library. - *ZMD (FL)*
