THURSDAY, 4 SEPTEMBER – Universiti Malaysia Sabah (UMS) continues to strive to facilitate and provide directions to the natives towards achieving excellence in future.

According to the Vice-Chancellor, Prof. Datuk Dr. Mohd. Harun Abdullah, the process of forming one's identity was during their study in a university and for them to be able to think and armed with professionalism in performing their job.

“Take full advantage of your studying in the university, to capture the widest possible knowledge and the highest of skills,” he said during his speech at the Pledge and Oath-taking Ceremony held at the Dewan Canselor this morning.

Prof. Datuk Harun also advised the new students to master various knowledge and skills to equip themselves well in entering the real world after they graduate.

“As an undergrad, your responsibility is to do extensive reading and not just rely on the notes provided by your lecturer in the lecture room,” he quipped.

This year UMS has an enrollment of 4,851 students, including 165 international students. – *ZMD (fl)*
