**TUESDAY, 20 SEPTEMBER** – The Daycare and Transit Centre, Pusat Minda Lestari (PML) Universiti Malaysia Sabah (UMS) organised a trip to the Sabah State Museum, recently.

The visit was participated by 52 children aged 4 and 6, accompanied by 8 teachers including the supervisor of the Daycare and Transit programme, Jaini Sapirai.

According to Jaini, this visit aimed to foster the spirit of patriotism amongst children on the history of the country.

“They get to see for themselves the history of the nation besides developing their socio-emotion, cognitive and gross motor movement in helping the development of early childhood,” he said.

According to him, the children had the opportunity to explore the historical artifacts found at the museum, besides getting a close look at animals that had been cured, and hands-on experience with game-related science activities.

“PML actively carry out outdoor activities during the school holidays as an effort to help increase the knowledge and intelligence of the children under PML,” he said.
