THURSDAY, 04 AUGUST – Universiti Malaysia Sabah (UMS) tourist visits continues to soar after the launching of EcoCampus Visitor Information Centre (EVIC) yesterday.

UMS Media survey today found that tourists arriving in three tourist buses and two taxis were enjoying the scenery around UMS Chancellor Hall.

All of them took photographs of the surrounding areas,

especially of the Clock Tower that is unique and an attraction itself

There were also taking selfies against the backdrop of the stairs near the library and the Chancellery Building from below.

It was understood that these were tourists from China, Korea and Japan, judging from their appearance. – *SS (fl)*
