

UNIVERSITI MALAYSIA SABAH

'Strive to Excel'

Applying for a place in a University is one of the most important decisions in your life. You should choose the University which offers the programme that is most appropriate to you.

Universiti Malaysia Sabah offers a liberal education that will produce balanced students, not only adept in the area of specialisation but also knowledgeable in other areas, as well as being more open, tolerant and understanding.

Students take a major in the school they are enrolled in, a minor in another school as well as University Courses from the Centre For The Promotion Of Knowledge And Language. For example, Science students will be given the opportunity to take Accounting, Economics or Psychology as their minor. This combination enhances the students' potentiality and marketability.
