Use UKM branch as new varsity, says association

KUALA LUMPUR, Fri. — The Universiti Kebangsaan Malaysia Academic Staff Association has suggested that the UKM branch campus in Sabah be used as the site for the State's proposed university.

The association decided on this proposal at a meeting last week, its president, Prof Datuk Dr Wan Hashim

Wan Teh, said in a statement today to welcome the Government's move to build a university in Sabah.

Education Minister Datuk Amar Dr Sulaiman Daud said on Wednesday it was hoped that the university could have its first student intake in the middle of this year by using the UKM branch campus. — Bernama
