121 UMS Sport Science students take part in Poster and Innovation Exhibition

NSJ 21.5.2019 4

KOTA KINABALU: Second year Sport Science students from the Faculty of Psychology and Education (FPP), Universiti Malaysia Sabah (UMS) has recently held the seventh Poster and Innovation Exhibition programme.

According to a statement by FPP, the exhibition, with its theme "Creativity and Innovation Leads to Higher Level of Thinking", aimed to provide opportunities for the students to present their research and innovation courseworks.

"This exhibition has attracted 121 entries divided to five categories, namely Skill Analysis (Kinematics) with 34 students, Talent Development and Identification with 74 students, and the rest in the Competition Analysis category.

"The participation also saw five invited undergraduates and eight final year students under the supervision of UMS FPP Sport Science lecturer, Suppiah K," it said.

The programme also applied research and problem-solving procedure based on scientific thinking which was hoped to open the minds of the students in producing creativity and artistry, while also instilling critical thinking skill.

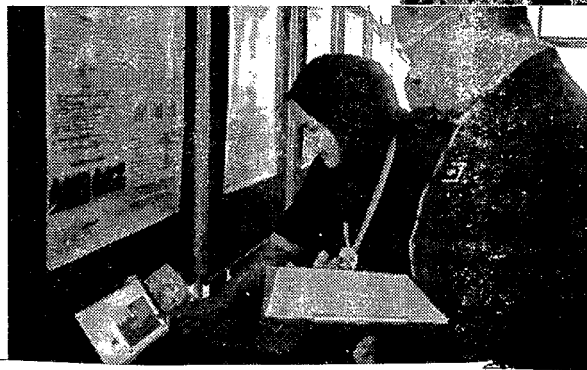

At the same time, it is also hoped that the programme could be the best medium in generating first class graduates with brilliant ideas that could contribute to the development of the sports industry in Malaysia.

The event was officiated by FPP Deputy Dean (Research and Innovation), Dr Denis Andrew D. Lajium.
