By MOHD KHAIRY ABDULLAH

KENINGAU: Universiti Malaysia Sabah (UMS) will be offering off campus studies here to those keen to take up a degree in Social Science.

The off campus study programme was an effort by the Keningau Umno Bureau of International Student Affairs.

Liawan assemblyman, Datuk Sairin Karno also the Keningau Umno chief lauded the move saying that it garnered well for people in the Interior because it gave them the opportunity to pursue tertiary studies.

"I congratulate both the bureau and UMS for making this a reality and allowing more people in this district the chance to gain a degree," he said.

He said that he had long dreamed of having a branch campus of the university in Keningau and added that a plot of land had even already been identified.

He therefore described this latest development as a first step to setting up another UMS campus.

Sairin urged all those with the proper academic qualifications or work experience to apply for the course.
