

Develop leadership qualities, students urged

NST 15.03.2007 P. 4

By MARRYAN RAZAN

LOK KAWI: Fifth Brigade commander Brig.-Jen. Baharom Hamzah has urged students to develop leadership qualities besides excelling in academic studies, saying this approach could produce a generation of excellence.

"As the next generation of leaders, students will determine the leadership style and future of this country.

"Assimilating noble values with the local culture could produce a Malaysian race of excellence," he said when closing a

leadership programme at Dewan Kinabalu, Kem Lok Kawi here yesterday. His speech was read by the brigade's chief of staff Lt.Kol. **Nadzri Che Lah**.

The programme, organised by Universiti Malaysia Sabah (UMS) with the cooperation of the camp's education branch, was attended by 60 Year 6 students of SK Kem Lok Kawi.

Baharom said such programmes could enhance students' self-development and help to keep them away from negative and destructive aspects in line with the national education philosophy.
