Nine IPT students receive RM3,000 aid after Numbak fire

KOTA KINABALU: Nine students from six higher education institutions (IPT) affected by the fire in Kampung Numbak here on Aug 30 received RM3,000 each in aid from Yayasan Perkasa Siswa (YPS).

In a statement Monday, the Ministry of Higher Education (MOHE) said the students are from Universiti Malaya (UM), Universiti Malaysia Sarawak (Unimas), Universiti Malaysia Sabah (UMS), North Borneo University College (NBUC), Unitar Kota Kinabalu and Goon International University College (GIUC).

In addition to the initial aid from YPS, the institutions involved also provided further assistance based on the respective students' needs.

It said Higher Education Minister Datuk Seri Dr Zambry Abd Kadir also visited the students' families Monday to assess their current condition and needs after they lost their homes and belongings in the fire.

"This disaster has not only caused the loss of property but also deeply impacted the students and their families emotionally. Our presence is to ensure they do not feel alone while going through this difficult time.

"The Ministry's priority is to ensure their welfare and studies continue to be safeguarded. The hardships faced should not be a barrier for them to continue their studies and build a future," Zambry said in the statement.

He also requested the institutions involved to monitor the condition of each student and provide follow-up assistance, including accommodation, learning necessities, financial support and psychosocial services, if needed.

He said MOHE's approach is to ensure that the Ministry, universities and the entire higher education ecosystem are more agile in identifying and assisting students facing difficulties.
