UMS woos STPM school leavers

DE 6-4-16 14
KOTA KINABALU: Universiti Malaysia Sabah's Science and Natural Resources Faculty organised the "Selangkah ke Menara Gading Siri 2" programme recently to woo STPM school-leavers and Form Six students in Sandakan, Tawau and Lahad Datu.

Deputy Dean (Academic and International) Associate Professor Dr Abdullah Bade said the programme among others

was to provide the opportunity for students to know more about the programmes offered by the faculty.

At the same time build their interest in the field of forestry, he said.

"We hope this approach will generate an interest among the students to enrol in programmes at the faculty in the forthcoming Sept 2016/2017 session," he said.
