

# Over 1,000 join IEM Sabah Engineers Run 2.0

BP 8.11.2018 4

**KOTA KINABALU:** Institution of Engineer Malaysia (IEM) Sabah branch organized the IEM Sabah Engineers Run 2.0 on October 28 at Likas Stadium following the success of the first run in 2015.

A total of 1,115 participants took part in the event.

IEM is a professional learned society that serves more than 35,000 engineers in Malaysia with the objective of promoting and advancing the profession of engineering in various disciplines and to facilitate the exchange of information and ideas related to engineering.

“While promoting a healthy lifestyle despite a hectic work routines by bring together professionals from different fields of expertise and the general public in a running event, the IEM Run 2.0 is also aimed at celebrating and promoting the development of Kota Kinabalu city via scenic route,” said IEM

IEM Sabah Run 2.0 Organising Committee and IEMS UMS Students Chapter members.

Sabah Chairman Ir Dr James Yong.

“The other aims of the run are to promote and introduce IEM Sabah as a premier professional organisation that plays an important role in consistently

supporting engineers in their professional development to contribute to nation building and to showcase the ability of young engineers from Young Engineer Section (YES) Sabah Branch in organising a running event with

good management, communication and leadership skills and to raise fund for Corporate Social Responsibility (CSR) community programme and other events to empower aspiring professionals via IEM and YES,” James said.
