

UMS-KAL ready to set up oil and gas school

BP 9-7-13 B1

THE director of Universiti Malaysia Sabah, Labuan International Campus (UMS-KAL), Associate Professor Dr Ismail Ali welcomed the idea to set up an oil and gas school at the campus and was willing to collaborate in developing Labuan as an oil and gas hub.

During his courtesy visit to Labuan Member of Parliament Rozman Datuk Isli at the latter's residence on June 21, Dr Ismail said that with all the facilities available in the campus, he believed the proposal could materialise, but it must undergo certain procedures before the school could be set up.

Besides, UMS-KAL planned to revive Labuan sporting glory, especially in football, by opening a football clinic for teenagers

Dr Ismail (third left) presenting a souvenir to Rozman, watched by Dr Ag Asri (second left) and the campus officials.

under 18, he said, adding that an art and cultural carnival will also be organised this year.

Meanwhile, Rozman is keen to cooperate with UMS-KAL as the university has been inspiring the local students to pursue their studies at university level.

He therefore hoped that the academicians in the campus would continue to share their respective expertise to develop the island further.

Also present was Labuan Informatics Science School dean Dr Ag Asri Ag Ibrahim.
