# UMS staff take part in team building activity

BP 29.7.13 B1

THIRTY-SEVEN staff of Universiti Malaysia Sabah, Labuan International Campus (UMS-KAL) participated in a team building activity organised by the campus' administration in Kiulu from June 21 to 23.

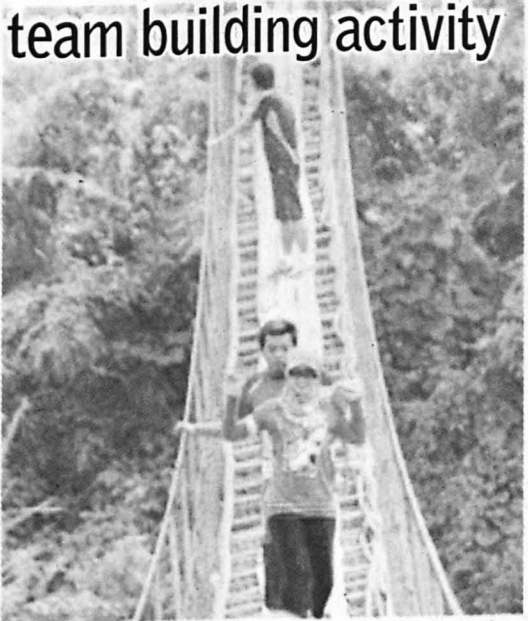

The deputy registrar of UMS-KAL, Zamri Mohamad Tuah, said the three-day-two-night course was not only intended to enhance the staff's motivation but also to instil competitive spirit among them to achieve excellent work quality.

"The main goal of this course is to build up commitment and strong teamwork among the staff in all levels in getting the job done.

"They (the staff) are also exposed to right interaction to make effective communication among them in doing their daily work," he said, adding that the staff were also trained with good leadership quality.

The three-day course was conducted by the consultant of Borneo Ultimate Sport Adventure Sdn Bhd.

Zamri added that he hoped all the participants would work out and apply what they had learnt from the module during the course at the campus to improve their work performance for the future of UMS-KAL.

The final challenge endured by the participants is the Trail Run where some of them are seen walking through the suspension bridge.

The participants also took part in adventurous activities such as Trail Run and River Swim, Borneo Rafting and Village of Adventure and Team Endeavour, where all of them were organised in a kind of Corporate Wargame.
