Exhibition on UMS eco campus development

17.11.2013 BP A7

KOTA KINABALU: An exhibition themed 'SPE Now and Then' gave students at Universiti Sabah Malaysia (UMS) an insight into how the university has developed into a 'green' institution.

The event, organised by the public relations team from the UMS School of Business and Economics on Wednesday, was aimed at instilling pride among students in the Eco Campus concept of the university.

Launched by School of Business and Economics deputy dean Dr Mohd Rahimie Abd Karim and public relations lecturer Charlie Albert Lasuin, the exhibition provided an opportunity to see the efforts made since 1994 to develop the campus.

There were also video presentations on achievements of students in UMS.

Dr Rahimie and Charlie launch the 'SPE: Now and Then' Exhibition.

A booth was also set up to provide year one students the information they seek on various courses, while another booth collected recyclable items like plastics, clothes and paper.

This was to encourage and create awareness among individuals on the importance of contributing to the recycling activities towards improving the environment.
