

UMS launches mobile app that can be downloaded

DE 11.1.2014 4

KOTA KINABALU: Universiti Malaysia Sabah (UMS) has launched a mobile application which can be downloaded by all users of android gadgets starting today.

The launch of the application was an effort to meet the objectives of the 4th University Key Result Areas (KRA-UMS) to strengthen governance, leadership and delivery systems.

The launching ceremony was officiated at by UMS Vice Chancellor, Prof. Datuk Dr Mohd Harun Abdullah, after the Chancellery Department Assembly at the university's eco-campus gallery.

The application, which is generated through the initiative of the Department of Information and Communication Technology (JTMK), can be accessed through wireless broadband (WiFi) or mobile data.

According to Harun, the move to create the system is very much on improving the quality of services to students and staff.

"Right now, UMS provides mobile applications for the use of students and developed for staff use in the future," he said.

Earlier, in his address to the staff of the Chancellery, he said instilling a high level of discipline must be continued to ensure the creation of excellent and competitive workers.

He said employees must perform their duties as public servants to the best of their abilities, always appreciate and be

punctual and always think forward as well continue to practise effective communication.

Over a hundred employees of the department were present at the assembly.

Also present were UMS Treasurer Rizal Othman, Chief Librarian Dayang Rukiah Ag. Amit; Chancellery Head No'man Datuk Ahmad and JTMK Chief Noor Hapipah Samat.
