Science conference woos 40 participants

DE 12-4-2019 11

KOTA KINABALU: The recently concluded 4th International Conference on Science and Natural Resources (ICSNR4) gathered more than 40 participants comprising scientists, engineers, industry players and students from various institutions.

The conference was organised by Universiti Malaysia Sabah's (UMS) Science and Natural Resources Faculty (FSSA) with the cooperation of United Scientist and Engineers International (UniSE International).

FSSA dean Prof Dr Baba Musta said the programme aimed to highlight research, development and commercialisation activities in science, natural resources and related fields.

"The conference is being held annually as a platform for participants from various backgrounds to share their latest researches and exchange views on theories, technology, applications and commercialisation," he said in the opening speech read by FSSA deputy dean Dr Mohd Sani Sarjadi.

The two-day conference witnessed some 36 papers presented including a talk on Ornamental and Medicinal Potentials of Sabah Jewel Orchids.

Also present were organising chairman Dr Assis Kamu and UniSE International representative Krist Mazmiel.
