LABUAN: Universiti Malaysia Sabah, Labuan International Campus (Umskal) is ready to work with the Inland Revenue Board (IRB) here for future collaborations.

Umskal Deputy Director Associate Professor Dr Geoffrey Harvey Tanakinjal said the institute always welcomes the cooperation between the staff and students of the university with Labuan IRB.

Through the collaboration, various initiatives could be held that could benefit many, especially the two organisations, he said.

"We are willing to cooperate with the Inland Revenue Board here, in various

fields involving the role of both organisations, namely for the benefit of university students and staff," he said during a courtesy call by Labuan IRB Director Mohd Shahriz Ramli. Geoffrey said the IRB could use available facilities at the campus, including holding various programmes such as seminars, talks and sports activities.

Meanwhile, Shahriz said the visit to the university campus was the first official visit by the Labuan IRB to any government departments or agencies in the region.

"In addition to explaining the role of the IRB, we hope that such programmes will further strengthen the relationship between the employees," he said.
