

UMS system a model for others

DE 13.1.2015 4

KOTA KINABALU: The usage of a university corporate credit card and i-claim system by Universiti Malaysia Sabah (UMS) has become a model for other public universities in Malaysia.

This was proven during the visit by Universiti Sultan Zainal Abidin's (UniSZA) Treasury Department staff to UMS recently where they were briefed about UMS' financial management.

According to UniSZA Treasurer, Ariza

Ibrahim, they chose to visit UMS due to its initiative in using corporate credit cards at all Pusat Tanggungjawab (PTJ) for purchasing flight tickets as well as hotel bookings.

"The method is far better and cheaper compared to the usage of warrants," she said.

UMS Treasury Department had been using the method since June 2014 for its entire staff and it also supports the concept of EcoCampus.
