

UMS launches Hope Project 3.0

DE 21.6.2019 10

KOTA KINABALU: Universiti Malaysia Sabah has launched, a community service project focusing on B40 group at the Likas Women and Children's Hospital.

UMS lecturer of the Faculty of Business, Economy and Accounting, Chan Hak Liong, said the programme was a continuation of the charity run that was previously held to raise funds for community service programmes.

"Hope Project 3.0 was held as a social obligation to students under B40 in the interior of Sabah at SK Kinaluan in Tambunan.

"In addition to helping and to lighten the burden of community in selected areas, students also have the opportunity to build ties with the rural communities," he said.

Chan said several activities were held at the school that include gotong-royong, planting of herbal plants with the school headmistress Halina John Jinuli and members of the PIBG as well as presentation of donation for pupils in B40 group.
